Summary

I'm excited to kick start my career in front-end development. I've developed a passion for crafting visually appealing and user-friendly web experiences. Through various personal projects, I've honed my skills in:

- Writing clean, efficient, and well-structured code
- Troubleshooting and debugging front-end issues

I'm eager to join a team where I can learn from experienced professionals, work on challenging projects, and contribute to the development of innovative web applications.

Technical Skills

HTML 5, CSS 3, JavaScript, React.js, REST APIs, Material-UI, Typescript, Git, GitHub, Basic Photoshop

Soft Skills

Active listening, Adaptability, Attention to detail, Continuous learning, Decision-making, Problem-solving, Result Driven, Team work, Time management, Work ethic

Projects

You Tube Video Streaming Website

- Developed a comprehensive YouTube project leveraging the **YouTube API**, integrating its robust features with searching and playback capabilities while ensuring scalability and performance
- Effectively utilized React Router to navigate between various pages and components within my application

Trello Board

- Designed a task management website, Trello Board, to track task progress featuring:
  - Backlog: Task assignment with **checkbox, delete and edit capabilities**
  - In Progress: Task status update via checkbox
  - Done: Task completion confirmation via checkbox
- Also features **pie chart** making the progress easy to read
- Easy to **filter priorities** of low, medium and high tasks

Hacker News

Developed a job posting portal that leverages the robust **Hacker News API** to showcase an array of job listings to explore and apply for exciting opportunities in the tech industry.

Education

Greater Noida Institute Of Technology | Noida, India
Electronics and Communications Engineering | 05/2017
